

Bioenergy – GLF Side Event: 27th EUBCE

Bah F. M. Saho
Principal Program Officer, Renewable
Energy, ECREEE

Biomass: An integral part of the Forest System

Trends:

- **Biomass consumption and its impact on the forest resources**
- **Factors: Population, methods employed**
- **Risks: BAU and impact**
- **Opportunities**

Challenges & Opportunities

Challenges:

- **Price, availability, cultural habits, etc**
- **Individual sector operation**

Opportunities:

- **Policy frameworks (sustainability criteria)**
- **Modernization – Bioenergy service delivery**
- **Integrated approach (multi-sectoral approach)**
